PROJECTS

Astrohub

Jan 2024 - Present

This project is undertaken for academic purposes, aimed at gaining a deeper understanding of the concept.
The envisioned web application is designed for academic purposes to explore the concept of space education thoroughly. It's intended to serve as a comprehensive platform for students, space enthusiasts, and anyone fascinated by the wonders of the cosmos. By emphasizing interactivity and engagement, the platform seeks to provide an interactive learning experience through elements of gamification, a variety of media content, and collaborative tools.
